

Your advantages as a speaker

To present oneself as a speaker to a group of people and to pass on one's knowledge is a Challenge - but also an award. Whoever teaches something to others ultimately achieves even more knowledge about a topic (teach to learn). We would like to invite you as a speaker on our Conferences and show you here what other advantages you have besides learning.

Your own presentation platform

Present yourself with your lectures in front of a great community, share your knowledge and raise your profile.

Free conference visit

During the entire duration of the event, you as a speaker will receive free access to the Conference. You will receive your conference badge on site.

Networking

Benefit from various networking opportunities, exchange ideas with other speakers, participants and exhibitors and make new contacts.

Further Benefits

In addition to free, balanced and varied meals at the conference, you receive in addition, one free hotel night per lecture in our speaker's hotel.

Our lecture formats

Not every topic is suitable for every length of presentation. For this reason we offer three types of presentations of lecture formats:

Session

Duration: Approximately one hour

Contents: Overview or very specific topic in depth

Method: Frontal teaching

Pauses: None

DevSession

Duration: About four hours

Contents: Intensive introduction to a topic

Method: frontal teaching with interaction with the participants

Breaks: A coffee break

Full-day workshop

Duration: 9:00 o'clock to 17:00 o'clock

Contents: Intensive learning and practice of new technologies

Method: Mixture of substance mediation and self-application of what has been learnt

Breaks: Lunch break & coffee breaks

Note: An own notebook for participants is obligatory.

We are looking for you

Would you like to be a speaker at one of our conferences? Then submit your presentations on time during the Call for Speakers for the respective conference. Whether a 60-minute session, an intensive full-day workshop or a DevSession – proofs us on the basis of your abstract with 500 to 1800 characters, that exactly you are the right speaker for our conference.

Technical equipment

Especially in the case of full-day workshops, participants often need software to participate. They should install this software in advance so that the group can immediately get to grips with the topic. Therefore you should tell us this software in advance.

What to think of

- If the participants need a specific Software, please let us know in advance.
- Please bring your own laptop with you, as we do not make it available.
- Think of an appropriate adapter if you are working with an Apple product want.
- Create a PDF of your presentation and send us the file by one week at the latest after the conference, so that we can make it available to the participants afterwards

What we think of for you

The following equipment is available in the lecture rooms:

- Beamer
- Canvas
- LAN and W-LAN connection
- Microphone
- presenter
